I am entering the District 13 ISAR competition scheduled for July 26-27, 2003. I understand that the location for the competition has not yet been decided but that it will be held either in Coos Bay, OR or at some location on or near Puget Sound. Notification of the competition site will be sent out to the registrants when the information is received.

I also understand that DIRAUX will provide some funding that includes travel funding and per diem. I understand that I will need to make the specific funding arrangement directly with DIRAUX who may direct the transportation mode I use, and who will provide other funding details. Also, efforts are currently being made by DIRAUX to find reasonable accommodations for the contestants.

I also understand that certain information is available regarding the competition events. I can check with my Area representative to make sure I have the most up to date information.

Finally, should I have to cancel this registration, I will do so through my Area representative as soon as I have knowledge of such a need to cancel. (I recognize that advance notice will help avoid unnecessary costs and unnecessary time expenditures.)
